Highest Officers
of Moose Order
Coming Here

Director General and One of
Mooseheart Managers to be
Guests of Albuquerque Wed-
nesday

Hope that the Moose supreme officials have decided to locate the \$2,000,000 sanitarium of the order in this city has been increased among the Moose here by the receipt of a telegram by Secretary A. C. Culver of the local Moose lodge from Walter R. Dorn, supreme dictator, announcing the coming of Director General James J. Davis and Congressman John J. Lewis one of the governors of Mooseheart. The two high members of the order are to arrive in the city Wednesday evening.

In his telegram sent from San Francisco, Supreme Dictator Dorn urges the local lodge to arrange a public meeting at which the visitors may speak.

He believes—or, at any rate, are highly hopeful—that the visit of the two prominent members of the order means that the supreme officials are getting ready to break the good news that Albuquerque will be the location of the sanitarium.

Telegrams from the headquarters were heading north on that possibility were unanswered yesterday, and today Dr. H. L. Russ, one of those prominent in the movement to secure the sanitarium, sent another message, putting the question upmost in Albuquerque's mind point-blank. He wired as follows to the Denver office:

"Chamber of Commerce of our city wants to know if coming of Davis and Lewis has to do with sanitarium in order to co-operate. If so will meet in our club. Will at once definitely that we may be prepared in either event."

That was sent in the form of a day letter. No answer to it had been received up to mid-afternoon.

BOARD DIVIDES ON
RESPONSIBILITY FOR
MONROE CATASTROPHE

By Leased Wire to Evening Herald. Philadelphia, March 15.—The local board of arbitration inspectors today rendered a divided opinion in the trial of Captain Olym Berry, charged with negligence in the collision with the steamer Monroe, in which 43 persons lost their lives. One member of the board exonerated Captain Berry and found Captain Edward J. Johnson, of the Monroe guilty of "negligence, negligence and wantonness."

The other member of the board found Berry guilty as charged and recommended that his license be revoked.

The next move in the case will have to be taken by the department of commerce in Washington.

Foreman Shoots Mexican Laborer. Ottawa, Ill., March 15.—Jack O'Neill, foreman of the Rock Island Mill, shot and killed a Mexican laborer at Fairfield this morning, exclaiming that the act was in self-defense. O'Neill gave himself up to the authorities and said he was attacked by the Mexican when he ordered the man from a car.

PRESENT GRAND JURY
HAS LITTLE BUSINESS

The present grand jury has probably the shortest list of cases from this city on record. Chief of Police McMillin said today that it was the shortest list he could remember in all his connection with the police department.

It wasn't because the city was growing no appreciably better, the chief explained, but because the law that permits prisoners to plead guilty to the district attorney has served to keep a number of cases from the jury. No one who has arranged for information with the district attorney, and indictment by the grand jury is not necessary. A number of prisoners have no places since the last grand jury was in session.

Among the new cases the police department has to offer the jury is an information arranged on information by the district attorney, and indictment by the grand jury is not necessary. A number of prisoners have no places since the last grand jury was in session.

Nine Russians Including Fac-
inating Young Woman on
Trial for Peddling Informa-
tion.

[By Leased Wire to Evening Herald.] Vienna, Austria, March 16.—The second stage of the attempt to unravel the alleged extensive Russian espionage campaign in Austria was opened here today by the Austrian government. Nine Russian subjects were placed on trial before the criminal court, accused of being employed by the Russian government to inform on Austrian military re-
cruits, especially in regard to Galicia, where the Austrian and Russian troops run side by side. The accused are all civilians. They include two women, one of whom, Nona Eleni, is youthful and very attractive, and is alleged to have succeeded in obtaining information from susceptible officials at Lemberg.

The first stage in the campaign against spying in Austria was marked by the suicide of Alfred Bechtel, a general staff officer of the Sixth Austrian army corps, whose headquarters are at Prague, Bohemia. He shot himself in May after his treason had been discovered. It was stated at the time that he had been given an opportunity of taking his own life instead of being brought to trial.

BOARD DIVIDES ON
RESPONSIBILITY FOR
MONROE CATASTROPHE

By Leased Wire to Evening Herald. New York, March 16.—Pirates today boarded and looted the Norwegian steamship Chitala off this port, carrying off booty to the value of \$200,000 after overpowering, landing and kidnapping the six Europeans on board.

The pirates were armed with rifles, pistols and revolvers.

Already twenty high class entries are in sight. How many more contestants will enter when the plans are completed there is no telling. C. H. Bigelow, of Los Angeles, one of the best known automobile race promoters in the country, who initiated the plan for this race, says the event will be hung up for the drivers, but the promoters of the big race are working for the success of the affair, according to everything else of its kind.

Mr. Bigelow has written Mayor W. H. Sellers, president of the Ocean-to-Ocean Highway association, to enlist his aid in promoting the race. The route will be over the Lincoln highway and the ocean-to-ocean highway. It is hoped to run the race early in the coming summer.

Mr. Bigelow took a most prominent part in the San Joaquin auto race, and it was he who arranged the San Diego-Phoenix road race. During the recent Vanderbilt race meet he broached the subject of the Indian Hills-Los Angeles race to all the drivers, and every one of them, including the most famous speed king declared they were enthusiastic in its favor. As already noted, there are twenty entries now in sight.

Mr. Bigelow is planning to start soon from Los Angeles on a " publicity" trip to the other end of the proposed race route. He will make stops in all the communities along the route, getting subscriptions to the purses. Because of the number of towns along the route, it is expected that the purses will make up princely purses—purses big enough to draw the most famous and spectacular drivers on both sides of the Atlantic into the contest.

No cent is to be sought by the promoters of the race. It is proposed to have the Lincoln Highway-Ocean-to-Ocean Highway association accept contributions for expense from the promotion of the event, and the local subscriptions will go intact into the purse fund. It is felt that the "gypsy" associations should bear the expense of promotion because of the invaluable publicity that will come not only to the route, as such, but to all the communities along it. Mr. Bigelow, however, who is well-meaning, will share the work, purely for love of the game.

Mayor Sellers, it goes without saying, is heartily in favor of the race. He has written Mr. Bigelow pledging every effort in his power to push the plans to full realization.
